

Patients Prefer Giotto USA Mammo System

Giotto USA, LLC conducted a non-scientific survey of 120 patients from six different breast centers in five states, Washington, Michigan Kansas, Florida, and Texas. The patients answered 5 questions on a scale of 1 to 5 with 5 being most favorable to Giotto. Below is a summary of the results of the study:

- 75% indicated that their first impression of the Giotto was a 4 or 5 compared to previous exams.
- 83% indicated a 4 or 5 with respect to the examination being faster.
- 79% indicated a 4 or 5 with respect to being more relaxed during the examination.
- 71% indicated a 4 or 5 with respect to compression being more comfortable.
- 88% indicated 4 or 5 with respect to the overall mammographic experience being favorable.

All of these benefits combined create a truly patient friendly mammography experience.
